

1. Built and filled our database

2. Chose a template

3. Customized the website (styled, made tabs functional)

4. We made dropdowns and log off functionality in a dropdown

▼ Hello z@ot.com!

5. Made Student/Courses tables for enrollment

Enrollment

StudentID

Ronald MacDonald

ScheduledClassesID

Religious Studies | Here and Now | 2022/04/22

Enrollment Date

yyyy/mm/dd

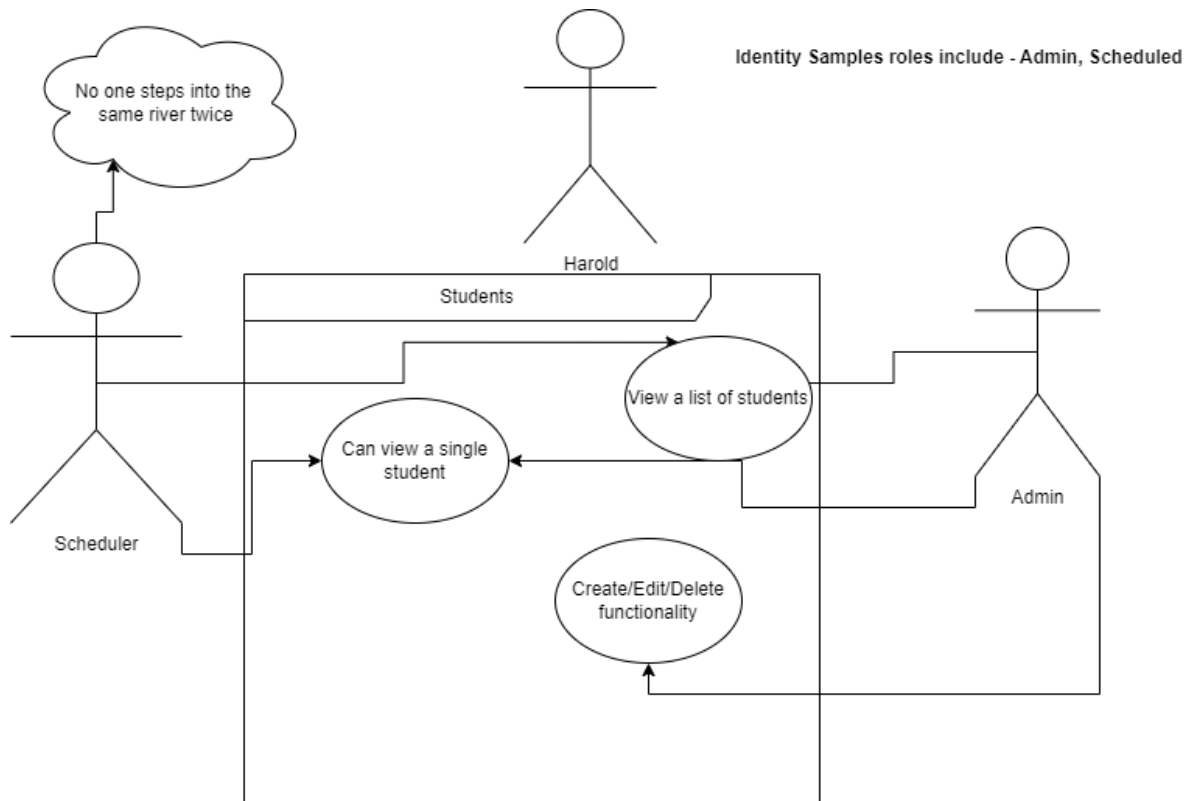

Create

[Back to List](#)

6. Gave students/courses statuses

	SSID	SSName	SSDescription
	1	Prospect	Student who has inquired about taking classes at the institution.
	2	Current Student	Student who is actively participating in classes.
	3	Former Student - Withdrawn	Student who has left the institution on their own accord.
	4	Former Student - Dismissed	Student who has left the institution at our request.
	5	Alumni	Student who has finished their course work and left the institution.
	6	Booted	Student who has been kicked out of the institution.
»	NULL	NULL	NULL

7. Authorized // Locked down views
